

LAST MINUTE GUIDE TO THE CALIFORNIA PROPOSITIONS

30	YES	Nobody likes to pay taxes, but everybody wants police, fire protection, and an educated workforce that attracts good businesses. Before you get all judgy and I-don't-trust-the-politicians, try balancing the state budget for yourself: http://www.budgetchallenge.org
31	NO	Mostly creates confusion and adds to the bureaucracy in Sacramento.
32	NO	There's already too much money corrupting the political process. This will only add to it.
33	NO	A man who made millions selling auto insurance wants to change the laws on auto insurance. Want to guess who wins and who loses?
34	YES	Help make sure California never again puts an innocent person to death.
35	NO	Good idea, badly implemented.
36	YES	It doesn't overthrow the 3-strikes law. It does make sure that people can't be sent to prison for life after stealing a set of golf clubs.
37	YES	You have the right to know what's in your food. If food manufacturers don't want to tell you what's in their products, then you <u>really</u> need to know.
38	NO	It sounds so good – more money for education! But actually it ties the hands of state lawmakers who are trying to balance the state budget (see #30 above).
39	YES	If you live in a state, you pay that state's taxes. So should energy companies.
40	YES	Literally no one in California wants you to vote no.

SEE YOU AT THE POLLS on NOVEMBER 6
